

Machining

**Lean
Solutions**

Assembly

1.

Cutting Edge Machining

We work with a wide range of materials, including alloy steel, aluminum, brass, plastics, and composites. We continue to invest in our 20,000+ sq. ft. facility that features a Swiss Machine, CNC machines, turning, honing, broaching, and Wire EDM capabilities. Our engineering team is available to optimize product design and develop processes to meet even the most demanding projects.

- **Swiss Machining:** We machine parts for aerospace, automotive, electronics, and more.
- **CNC Turning:** Bar stock from 1/8" to 3' diameter, chuck slugs up to 6".
- **CNC Milling:** 3-, 4-, and 5-axis; process parts up to 3"x3"x3".
- **Additional Capabilities:** Honing, Broaching, Gear Cutting, Wire EDM

2.

Novo Assembly Advantage

We provide flexible assembly solutions for companies of any size. With capabilities ranging from full design and engineering support to simple final-product assembly, Novo specializes in product assembly, sub-assembly, and contract manufacturing across industries including medical, HVAC, firearms, and automotive.

- **Mechanical Assembly**
- **Electrical Assembly**
- **Contract Manufacturing**

3.

Novo Lean Solutions

We develop practical, shop-floor-ready products designed to eliminate waste, improve flow, and support operational excellence in manufacturing environments. Our products focus on lean workstations, parts conveyance systems, and visual/metrics tools that help teams streamline processes and solve common production challenges.
