Novo Machining Services

Cutting-Edge Machining

✓ ISO 9001:2015 Certified

Custom Parts

Novo Precision specializes in machined parts for industries worldwide. We work with a wide range of materials, including alloy steel, aluminum, brass, plastics, and composites. We continue to invest in our 20,000+ sq. ft. facility that features a Swiss Machine, CNC machines, turning, honing, broaching, and Wire EDM capabilities. Our engineering team is available to optimize product design and develop processes to meet even the most demanding projects.

Our Services

Swiss Machining

Novo Precision machines precise and intricate parts for aerospace, automotive, electronics and more.

CNC Turning

Our machines process bar stock from 1/8" to 3' diameter and chuck slugs up to 6".

CNC Milling

Novo Precision has 3-, 4-, and 5-axis CNC milling machines that can process parts up to 3"x3"x3".

Additional Capabilities

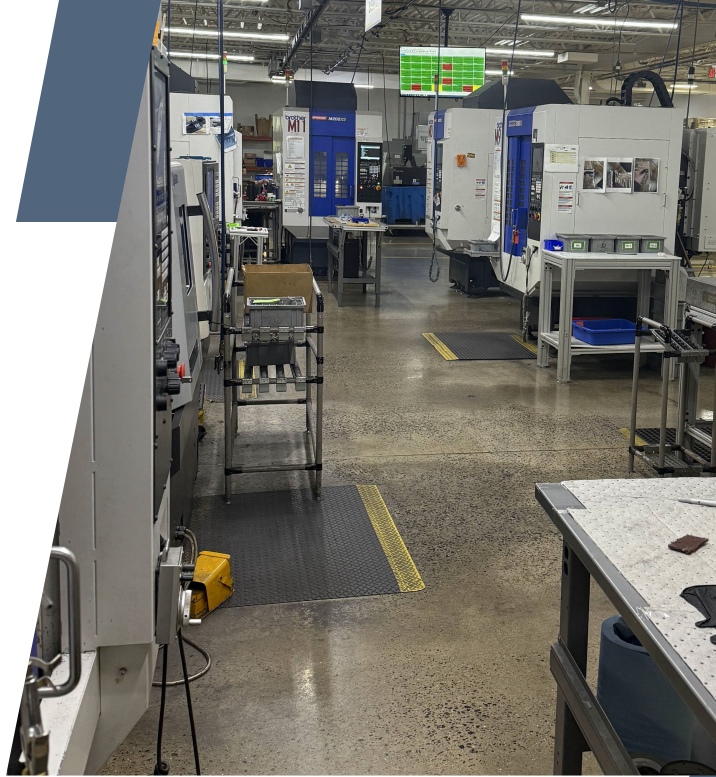

- Honing
- Broaching
- Gear Cutting
- Wire EDM

Novo Assembly

Manufacturing Partner

Assembly Services

We specialize in product assembly, sub-assembly, and contract manufacturing. We take pride in having developed assembly lines for customers in medical, HVAC, consumer products, automotive, and more.

Our Capabilities Include:

- Mechanical Assembly
- Electrical Assembly
- Contract Manufacturing
- Assembly Process Design & Development

About Novo Precision

Novo Precision began with precise wire straightening and cutting services, expanding to become a design and manufacturing service provider. We offer machining, manufacturing, and assembly services to industries worldwide.
